Non - Sterile Gel Hand Sanitizer

ProtectRx® Gel Hand Sanitizer - Non - Sterile - Solution is a hand cleaner and sanitizer created using a FDA Registered formula for hand sanitizing. Proper use of these products reduces bacteria that potentially can cause disease. For use when soap and water are not available.

ProtectRx® Hand Sanitizer is manufactured using 70% alcohol formula that is effective at killing Covid-19, as well as many other types of bacteria and viruses.

ProtectRx® Hand Sanitizer is a gel formula that provides a gentle moisturizing experience with a pleasant scent (lime/sea salt).
