DIVIDE

Collaborative, open-air desks will soon be a thing of the past. Employees are now looking for their own protected and divided workspaces. Clarus’ product, Divide, acts as a cough/sneeze barrier between workspaces and can be customized to reach various heights. Like most of our products, we can custom match any glass color to coordinate with your existing furniture systems. We also offer translucent or opaque glass finishes.

Existing Floorplan
Headcount - 36

Designed before COVID-19, the existing floorplan meets client's required headcount while providing choice and control over where individuals work. An array of owned, shared, private and collaborative spaces placed throughout the neighborhood. This plan encourages impromptu interaction and collaboration. Each user has their own personal storage at the desk along with community storage for team supplies.

1. 6x6 workstations
2. Aisleways set to standard circulation guidelines. Current minimum is 48”
3. Headcount including nomadic workers = 50
4. Enclosed collaboration for small and large groups
Day-1 Modified Floorplan
Headcount - 36  
Recommending 50% occupancy

Day-1 design adjustments have been made with little product added and some removed. It is recommend to staff at 50% occupancy to provide adequate distance between each worker at their owned stations. Spacing between the 4-packs increased due to eliminating gathering spaces. Collaboration spaces have been adjusted to meet social distancing requirements. Community storage protocols to be put in place.

1. Adjust aisleways to one-way traffic only.
2. Minimal adjustments in collaboration areas to spread employees out within the space.
3. Day 1 recommends 50% occupancy of owned workstations.
4. Enclosed collaboration spaces adjusted to fit social distancing standards.
Workstations
Option B.3 – Convert to 6-pack

1. Convert to 6-pack by adding 24" W x 42" H panel to each work area.
2. 15" high front and side screens mounted to worksurface.
3. 12" H translucent glass stacker added to 30" wing panel.

Workstations
Option B.4 – Convert to 6-pack

1. Convert to 6-pack by adding 24" W x 42" H panel to each work area.
2. 12" H translucent glass stacker added to 30" wing panel and along center spine.

Workstations
Option B.5 – Convert to 6-pack

1. Convert to 6-pack by adding 24" W x 42" H panel to each work area.
2. Add 12" H framed glass stacker to 30" wing and spine panels.

- PRIVACY USING WELLNESS + COLLABORATION SCREENING
- USER CHOICE + CONTROL
COVID 19 + THE FUTURE OF FURNITURE | WHATS YOUR LAYOUT?

If the workstation has:

A. Power fence spine
B. Collaborative areas between people

- Add a simplified laminate storage piece that is open (no pulls) to hold personal belongings.
- Add/change screens to a hard surface or cleanable fabric to be ~50” (seated height barrier) - 72” (standing height barrier) off the floor.
- Add sanitation caddies/stands for personal use – wipes, hand sanitizer.
- Add tall hard surface or cleanable fabric panel or screen to end of the desk.
- Remove collaborative table and ottomans and replace with a hard surface divider, such as below, or a mobile markerboard.

Back-to-back layouts are ideal for not spreading germs!

Add a drawer to hold keyboard and mouse for when station is not in use.
COVID 19 + THE FUTURE OF FURNITURE | WHATS YOUR LAYOUT?

If the workstation has:
A  Panel based
B  L or U shaped

- Add sanitation caddies/stands for personal use – wipes, hand sanitizer.
- Add panel or screen to end of the desk in laminate/hard surface, or cleanable fabric.
- Remove tool rail and office supply holders and replace with a hard surface tile.
- Higher glass is good! Add this or increase panel height on shorter panels as well.
- Replace exterior fabric panels with laminate, metal or closed pore veneer tiles.
- Add a drawer to hold keyboard and mouse for when station is not in use.
